Club Meeting – Apr. 2nd at 6:30 P.M.

Meeting at Our Airfield

Rookie Races

Is anyone interested? Contact Duane

Meeting Notes

**Our next Meeting is Monday
April 2nd, 6:30 PM, at Our
Airfield**

March's Meeting was at Jerry's Hangar.

We are replacing the torn orange safety fence as soon as I purchase the materials. There was a suggestion that we install a charging station that our pilots could use for charging our transmitter, receiver, and aircraft batteries. Scott put this idea forth as a similar unit is in good use at Hawk Airfield. We discussed trying some night flying with LED lights on our aircraft.

This is the second month in a row that Scott has lost an aircraft because the wing separated from his A/C during flight. Will it happen again this month?

The Cub Scouts had a Rocket Day at our airfield on March 24th.

4/5/2013

Sunday March 25th, Pat invited all members to come fly and have fun at our airfield. Eight members, and four guests, one of which is a new member, showed for the beautiful flying weather. When Pat arrived, (on time) there were already 2 mowing, and 2 blowing and edging. Pat brought another mower and joined in and the field has never looked better, but the way it is growing, it will need mowing again before the meeting. John, Scott and Pat brought food and Pat's wife Leslie came along to cook while we played. Three of us stayed until dark. It was the biggest turn out we have seen at our field.

Please be on the watch for vandals and trespassers destroying our property or the landfill's equipment.

Club Dues for 2012 are now due!
Members: \$60/year, over 63 Senior: \$40/year.

We remind all fliers to **use catch bottles** to contain the overflow when refueling your powered aircraft. This prevents damage to our worktables, runway, and grass. It also prevents the landfill from getting in trouble for fuel spills on the floodplain. **Do not fuel your aircraft on the worktables.**

ROOKIE RACING

Duane Riedel has changed our club's Pylon Racer Specifications to allow 40 to 46 ball bearing engines and open sport propellers. We welcome new fliers but ask that no hopped up

race planes participate. The AMA maximum speed limit is 100 mph.

Please pick up after yourself at the airfield, remove trash, and put the chairs away when finished.

Please make sure the gate is closed behind you if you had to open it to enter or leave.

Larry Nelson – STRCC Secretary

Seven Towers Radio Control Club

Flying Experience Level:

Beginner: _____ **Novice:** _____

Advanced: _____

Special Interests: _____

small club with roughly 35 members. Most of the folks are very laid back and are in the hobby strictly for pleasure. STRCC holds monthly meetings, usually the first Monday, to share info & swap stories.

We are chartered with the Academy Of Model Aeronautics (AMA) and are governed under their guidelines as well as some of our own club rules. The AMA provides many services but the main benefit is insurance. They provide liability coverage for each member at a very affordable rate. The cost is about \$58 per year. (That price includes a great monthly magazine)

Our club rules mandate that each person must be a current (or have at least applied for) AMA membership before becoming a STRCC member. This greatly reduces the clubs insurance rates and allows us to lower our membership costs.

The annual membership for STRCC is **\$60** per year.

Seniors 63 or greater are **\$40** per year.

To join STRCC during the year, new membership dues are prorated at \$60/year (\$6/month remaining).

About The Club:

The Seven Towers RC Club (STRCC) is a relatively
